

## **Computer Basic Knowledge: Do you know???????**

**QUESTION:** Which of the following computers is best suited for large-scale applications?

**TYPE:** Multiple Choice

**ANSWER:** I Desktop

**ANSWER:** C Mainframe

**ANSWER:** I Notebook

**ANSWER:** I Workstation

**QUESTION:** What is the term used for referring to the physical parts of computers?

**TYPE:** Multiple Choice

**ANSWER:** C Hardware

**ANSWER:** I Circuit boards

**ANSWER:** I Software

**ANSWER:** I Mouse

**QUESTION:** Which of the following statements is INCORRECT?

**TYPE:** Multiple Choice

**ANSWER:** I Computers perform exactly as they are programmed for

**ANSWER:** I Computers can execute millions of instructions every second

**ANSWER:** C All computers work at the same speed

**ANSWER:** I Programs are executed by the computer's processor

**QUESTION:** RAM refers to which of the following?

**TYPE:** Multiple Choice

**ANSWER:** I Read And Move

**ANSWER:** C Random Access Memory

**ANSWER:** I Random Analysis Machine

**ANSWER:** I None of the above

**QUESTION:** Program is another name for Software.

**TYPE:** True or False

**ANSWER:** True

**QUESTION:** Which of the following loses its contents when the computer is turned off?

**TYPE:** Multiple Choice

**ANSWER:** I Hard Disk

**ANSWER:** I Floppy Disk

**ANSWER:** C RAM

**ANSWER:** I CD-ROM

**QUESTION:** The computer can read information from a Floppy Disk faster than a Hard Disk.

**TYPE: True or False**

**ANSWER: False**

**QUESTION: The mouse is used to move a pointer over the screen.**

**TYPE: True or False**

**ANSWER: True**

**QUESTION: Which of the following is the "brain" of the computer?**

**TYPE: Multiple Choice**

**ANSWER: I Modem**

**ANSWER: I Mouse**

**ANSWER: C Processor**

**ANSWER: I None of the above**

**QUESTION: Which of the following is an Input Device?**

**TYPE: Multiple Choice**

**ANSWER: I Speaker**

**ANSWER: I Monitor**

**ANSWER: I CPU**

**ANSWER: C None of the above**

**QUESTION: Which of the following is an Output Device?**

**TYPE: Multiple Choice**

**ANSWER: I Keyboard**

**ANSWER: C Printer**

**ANSWER: I Mouse**

**ANSWER: I All of the above**

**QUESTION: Application Programs are also called Operating Systems.**

**TYPE: True or False**

**ANSWER: False**

**QUESTION: Which of the following is NOT a function of the operating system?**

**TYPE: Multiple Choice**

**ANSWER: I Opening files**

**ANSWER: C Editing files**

**ANSWER: I Copying files**

**ANSWER: I Printing Files**

**QUESTION: Which of the following is an Application Program?**

**TYPE: Multiple Choice**

**ANSWER: I Windows 95**

**ANSWER: I IBM-compatible computer**

**ANSWER: I Mac OS**

**ANSWER: C Microsoft Excel**

**QUESTION: All application programs are compatible with all operating systems.**

**TYPE: True or False**

**ANSWER: False**

**QUESTION: What is the unit used for measuring the speed of the processor clock?**

**TYPE: Multiple Choice**

**ANSWER: C Megahertz**

**ANSWER: I Megabytes**

**ANSWER: I Bits per second**

**ANSWER: I Miles per hour**

**QUESTION: Which of the following numbers is NOT used in Binary Digital Encoding?**

**TYPE: Multiple Choice**

**ANSWER: C -1**

**ANSWER: I 0**

**ANSWER: I 1**

**ANSWER: I All of the above are used**

**QUESTION: How many bits are contained in a byte?**

**TYPE: Multiple Choice**

**ANSWER: C 8 bits**

**ANSWER: I 16 bits**

**ANSWER: I 32 bits**

**ANSWER: I 32 digits**

**QUESTION: In order to hold the word "Hello" encoded into ASCII, how many bytes of storage are required by the computer?**

**TYPE: Multiple Choice**

**ANSWER: I 1 byte**

**ANSWER: C 5 bytes**

**ANSWER: I 10 bytes**

**ANSWER: I 40 bytes**

**QUESTION: Which of the following is roughly equivalent to a billion bytes?**

**TYPE: Multiple Choice**

**ANSWER: I a Megabyte**

**ANSWER: I a Kilobyte**

**ANSWER: C a Gigabyte**

**ANSWER: I None of the above**

**QUESTION: Memory and storage devices come in a wide variety of capacities ranging from a few Megabytes to several Gigabytes.**

**TYPE: True or False**

**ANSWER: True**

**QUESTION: A floppy disk is the most efficient tool for transfer of information between computers which reside in distant locations.**

**TYPE: True or False**

**ANSWER: False**

**QUESTION: Which of the following is used to convert the computer's binary digits to signals suitable for transmission over the telephone lines?**

**TYPE: Multiple Choice**

**ANSWER: I CPU**

**ANSWER: I Direct Cable**

**ANSWER: C Modem**

**ANSWER: I LAN**

**QUESTION: Which of the following refers to the main software used for accessing the World Wide Web?**

**TYPE: Multiple Choice**

**ANSWER: C Browser**

**ANSWER: I Operating System**

**ANSWER: I ISP**

**ANSWER: I Microsoft**

**QUESTION: Web pages are stored in special server computers referred to as Web Sites**

**TYPE: True or False**

**ANSWER: TRUE**

**QUESTION: The Windows Operating System is the program that controls and manages the operation of the whole computer.**

**TYPE: True or False**

**ANSWER: True**

**QUESTION: The main screen of Windows is referred to as:**

**TYPE: Multiple Choice**

**ANSWER: I Buttons and Icons**

**ANSWER: I My Computer**

**ANSWER: I Recycle Bin**

**ANSWER: C Desktop**

**QUESTION: Buttons and icons are elements on the screen that cause a particular action when they are clicked or double clicked.**

**TYPE: True or False**

**ANSWER: True**

**QUESTION: Which of the following statements is correct?**

**TYPE: Multiple Choice**

**ANSWER: I** You can make a window active by clicking on its Close button

**ANSWER: I** You can resize a window by dragging its Title Bar

**ANSWER: I** You can maximize a window by clicking on its Restore button

**ANSWER: C** When the mouse pointer is placed on any of the borders of a window, the pointer changes to a Double-Sided Arrow

**QUESTION:** Which of the following statements is **INCORRECT**?

**TYPE:** Multiple Choice

**ANSWER: I** The Maximize button will resize a window to its maximum size

**ANSWER: C** Both the Minimize button and the Close button close the window

**ANSWER: I** Double clicking on a window's Title Bar is another way to maximize and restore the window

**QUESTION:** The keyboard shortcut for a menu item is activated by pressing the keys indicated next to that menu item.

**TYPE:** True or False

**ANSWER:** True

**QUESTION:** Which one of the following statements is **CORRECT**?

**TYPE:** Multiple Choice

**ANSWER: I** Files are kept in the computer's monitor.

**ANSWER: I** Files can only contain text.

**ANSWER: C** A folder can contain other folders.

**ANSWER: I** Folders cannot have names.

**QUESTION:** The only way you can view the computer's contents is by using "My Computer."

**TYPE:** True or False

**ANSWER:** False

**QUESTION:** To create a file, you need to use a program.

**TYPE:** True or False

**ANSWER:** True

**QUESTION:** A file's "type" indicates the format of the information it contains.

**TYPE:** True or False

**ANSWER:** True

**QUESTION:** A file's extension consists of a dot followed by up to:

**TYPE:** Multiple Choice

**ANSWER: I** 2 letters

**ANSWER: C** 3 letters

**ANSWER: I** 4 letters

**ANSWER: I** 5 letters

**QUESTION:** Which one of the following statements is **CORRECT**?

**TYPE: Multiple Choice**

**ANSWER: I** You must always save your files in the "My Documents" folder on the hard disk.

**ANSWER: I** You can create any type of file using Microsoft Word.

**ANSWER: C** When you close a file, the file is removed from RAM.

**ANSWER: I** If you turn off your computer, the files saved on the hard disk will be erased.

**QUESTION: In "My Computer" or "Windows Explorer," you can sort the files being displayed according to size.**

**TYPE: True or False**

**ANSWER: True**

**QUESTION: When you open a file, its contents are copied from storage into RAM.**

**TYPE: True or False**

**ANSWER: True**

**QUESTION: If the file "Resume" is located inside the "Personal" folder on the "C" drive, then which of the following would be the correct path to this file?**

**TYPE: Multiple Choice**

**ANSWER: I** C:\Resume

**ANSWER: I** Desktop\Resume

**ANSWER: C** C:\Personal\Resume

**ANSWER: I** Resume\C:\Personal

**QUESTION: In "Windows Explorer," the files in a location are displayed in the window's left pane.**

**TYPE: True or False**

**ANSWER: False**

**QUESTION: You can use any program to modify any file regardless of the file's type.**

**TYPE: True or False**

**ANSWER: FALSE**

**QUESTION: What does the "Save as" function do?**

**TYPE: Multiple Choice**

**ANSWER: I** Saves a file as a new file, and deletes the original file.

**ANSWER: C** Saves a file as a new file, leaving the original file untouched.

**ANSWER: I** Saves a file as a new file, and also saves the original file.

**ANSWER: I** Saves a file as a new file, and renames the original file.

**QUESTION: Programs are associated with files based on file type.**

**TYPE: True or False**

**ANSWER: TRUE**

**QUESTION: What will happen if you double click on a file that doesn't have any programs associated with it?**

**TYPE: Multiple Choice**

**ANSWER: I The file will be removed from the computer.**

**ANSWER: I The file will be opened by the appropriate program.**

**ANSWER: C A dialog box will appear to let you select a program for opening the file.**

**ANSWER: I Nothing.**

**QUESTION: Which of the following statements is CORRECT?**

**TYPE: Multiple Choice**

**ANSWER: C A file's type is indicated by its file name extension.**

**ANSWER: I The association between files and programs is the same on all computers.**

**ANSWER: I A file can only be opened using the program that created it.**

**ANSWER: I A file can only be modified using the program that created it.**

**QUESTION: Which of the following statements is TRUE?**

**TYPE: Multiple Choice**

**ANSWER: I You can only print one copy of a document at a time.**

**ANSWER: C You can print page 4 of an 8 page document without printing the other pages.**

**ANSWER: I You can not print a document from "My Computer."**

**ANSWER: I You can not print a document from "Windows Explorer."**

**QUESTION: You can preview how a document will be printed before actually printing it.**

**TYPE: True or False**

**ANSWER: True**

**QUESTION: You can specify a document's margins and paper size using the Page Setup function.**

**TYPE: True or False**

**ANSWER: True**

**QUESTION: You can download files from the Internet to your computer using a browser such as Netscape Navigator or Internet Explorer.**

**TYPE: True or False**

**ANSWER: True**

**QUESTION: Which of the following statements is TRUE?**

**TYPE: Multiple Choice**

**ANSWER: C You can save files that you receive via e-mail in the desired location on your computer.**

**ANSWER: I The files you download from the Internet are always automatically saved in the "My Documents" folder.**

**ANSWER: I To send a file via e-mail, you must first copy the file in the "My Documents" folder.**

**ANSWER: I All the files you receive via e-mail are automatically opened in the browser window.**

**QUESTION: To view a folder's total size, you must:**

**TYPE: Multiple Choice**

**ANSWER: C Display the folder's properties.**

**ANSWER: I Select the List view.**

**ANSWER: I Select the Details view.**

**ANSWER: I Select the folder in "Windows Explorer" and look under the size column.**

**QUESTION: To create a new folder, you must first open the location where you want to place it.**

**TYPE: True or False**

**ANSWER: True**

**QUESTION: Which of the following statements is TRUE?**

**TYPE: Multiple Choice**

**ANSWER: C When you copy a file, the original file will remain untouched.**

**ANSWER: I To move or copy a file, you must first rename it.**

**ANSWER: I You cannot copy a file in the same location where it resides.**

**ANSWER: I You can only move or copy a file into an empty folder.**

**QUESTION: You can only move or copy one file at a time.**

**TYPE: True or False**

**ANSWER: False**

**QUESTION: To COPY a file between locations on the SAME drive by dragging:**

**TYPE: Multiple Choice**

**ANSWER: I You must hold down the Shift key.**

**ANSWER: C You must hold down the Control key.**

**ANSWER: I You must hold down the Alt key.**

**ANSWER: I You should not hold down any keys.**

**QUESTION: To COPY a file between locations on DIFFERENT drives by dragging:**

**TYPE: Multiple Choice**

**ANSWER: I You must hold down the Shift key.**

**ANSWER: I You must hold down the Control key.**

**ANSWER: I You must hold down the Alt key.**

**ANSWER: C You should not hold down any keys.**

**QUESTION: To MOVE a file between locations on the SAME drive by dragging:**

**TYPE: Multiple Choice**

**ANSWER: I You must hold down the Shift key.**

**ANSWER: I You must hold down the Control key.**

**ANSWER: I You must hold down the Alt key.**

**ANSWER: C You should not hold down any keys.**

**QUESTION: Which of the following statements is TRUE?**

**TYPE: Multiple Choice**

**ANSWER: I To rename a file, you must display its properties.**

**ANSWER: I Once you rename a file, you cannot change its name any more.**

**ANSWER: I To rename a file, you must first open it.**

**ANSWER: C Two files in the same location cannot have the same name.**

**QUESTION: When you delete a file from the "C" drive using "My Computer," the file will be permanently removed from your computer.**

**TYPE: True or False**

**ANSWER: False**

**QUESTION: Which of the following statements is TRUE?**

**TYPE: Multiple Choice**

**ANSWER: I The items in the Recycle Bin don't occupy any space on your computer.**

**ANSWER: I You cannot move an item out of the Recycle Bin.**

**ANSWER: C Once you empty the Recycle Bin, the items inside it will be erased for good.**

**ANSWER: I The Recycle Bin is automatically emptied at regular intervals.**

**QUESTION: After you empty the Recycle Bin, you can restore its contents using the Undo function.**

**TYPE: True or False**

**ANSWER: False**

**QUESTION: The Standard Toolbar buttons perform the same functions in both "My Computer" and "Windows Explorer."**

**TYPE: True or False**

**ANSWER: True**

**QUESTION: The Views button on the Standard Toolbar has more view types than the View menu.**

**TYPE: True or False**

**ANSWER: False**

**QUESTION: The Start button's "Documents" menu contains:**

**TYPE: Multiple Choice**

**ANSWER: I The list of files on the Desktop.**

**ANSWER: I The list of files in the "My Documents" folder.**

**ANSWER: C The list files that have been recently opened.**

**ANSWER: I** The list of Word Document files on the computer.

**QUESTION:** You can display the hidden menu of an item by:

**TYPE:** Multiple Choice

**ANSWER: I** dragging the item over the "My Computer" icon.

**ANSWER: I** clicking on the item in "My Computer" and then selecting open from the "File" menu.

**ANSWER: C** right-clicking on the item.

**ANSWER: I** double clicking on the item.

**QUESTION:** The keyboard shortcuts for the Copy and Paste functions are:

**TYPE:** Multiple Choice

**ANSWER: I** "Control C" and "Control P"

**ANSWER: I** "Alt C" and "Alt P"

**ANSWER: C** "Control C" and "Control V"

**ANSWER: I** "Alt C" and "Alt V"

**QUESTION:** You can delete an item using the Delete key on the keyboard.

**TYPE:** True or False

**ANSWER:** True

**QUESTION:** An item's shortcut is a duplicate copy of the item.

**TYPE:** True or False

**ANSWER:** False

**QUESTION:** Which of the following statements is CORRECT?

**TYPE:** Multiple Choice

**ANSWER: I** If you delete an item's shortcut, the item itself will be deleted as well.

**ANSWER: I** Drives cannot have shortcuts.

**ANSWER: C** You can open an item using its shortcut.

**ANSWER: I** Programs cannot have shortcuts.

**QUESTION:** You can empty the Recycle Bin using its hidden menu.

**TYPE:** True or False

**ANSWER:** True

**QUESTION:** The Find function allows you to find files and folder located:

**TYPE:** Multiple Choice

**ANSWER: I** only in the "My Documents" folder.

**ANSWER: I** only on the Desktop and the "My Documents" folder.

**ANSWER: I** in the main folders but not the subfolders.

**ANSWER: C** anywhere on your computer.

**QUESTION:** To find a file using the Find function, you need to know the file's exact name.

**TYPE:** True or False

**ANSWER: False**

**QUESTION: Which of the following statements is INCORRECT?**

**TYPE: Multiple Choice**

**ANSWER: I You can use the Find function to find files that were modified on a certain date.**

**ANSWER: I You can use the Find function to find files that have a certain file type.**

**ANSWER: C You can use the Find function to find the files that have been deleted.**

**ANSWER: I You can use the Find function to find files based on multiple criteria.**

**QUESTION: A complete break-down of a storage device is commonly referred to as:**

**TYPE: Multiple Choice**

**ANSWER: I A disk "meltdown"**

**ANSWER: C A disk "crash"**

**ANSWER: I A disk "malfunction"**

**ANSWER: I A disk "blow-up"**

**QUESTION: You can backup your files and folders manually by copying them using My Computer or Windows Explorer.**

**TYPE: True or False**

**ANSWER: True**

**QUESTION: Computers can make millions of calculations in a few seconds.**

**TYPE: True or False**

**ANSWER: True**

**QUESTION: Computers can save the contents of several books in their storage devices.**

**TYPE: True or False**

**ANSWER: True**

**QUESTION: Which of the following is a type of computer?**

**TYPE: Multiple Choice**

**ANSWER: I Workbook**

**ANSWER: C Workstation**

**ANSWER: I Workhorse**

**QUESTION: "IBM-compatible" refers to a standard type of personal computers.**

**TYPE: True or False**

**ANSWER: True**

**QUESTION: Which of the following is NOT a kind of computer?**

**TYPE: Multiple Choice**

**ANSWER: I Notebook**

**ANSWER: C Briefcase**

**ANSWER: I Server**

**QUESTION: Personal computers are more powerful than mainframes.**

**TYPE: True or False**

**ANSWER: False**

**QUESTION: Which of the following computers is designed for easy transportation?**

**TYPE: Multiple Choice**

**ANSWER: I Desktop**

**ANSWER: I Server**

**ANSWER: I Minicomputer**

**ANSWER: C None of the above**

**QUESTION: Which of the following statements is INCORRECT?**

**TYPE: Multiple Choice**

**ANSWER: I Both computers and humans have brains**

**ANSWER: C Both computers and humans have hearts**

**ANSWER: I Both computers and humans have memory**

**QUESTION: What is the term used for referring to the physical parts of computers?**

**TYPE: Multiple Choice**

**ANSWER: I Circuit boards**

**ANSWER: I Software**

**ANSWER: C Hardware**

**QUESTION: The processor resides in the computer's storage devices.**

**TYPE: True or False**

**ANSWER: False**

**QUESTION: A microchip may contain thousands of electronic circuits.**

**TYPE: True or False**

**ANSWER: True**

**QUESTION: Plug-in cards are circuit boards that give the computer additional functionality.**

**TYPE: True or False**

**ANSWER: True**

**QUESTION: Which of the following statements is INCORRECT?**

**TYPE: Multiple Choice**

**ANSWER: I The CPU is the same as the processor**

**ANSWER: I The CPU executes computer programs**

**ANSWER: C The CPU can store the contents of a small library**

**ANSWER: I The CPU controls the other components of the computer**

**QUESTION: RAM refers to a type of computer memory.**

**TYPE: True or False**

**ANSWER: True**

**QUESTION: Which of the following statements is INCORRECT?**

**TYPE: Multiple Choice**

**ANSWER: I RAM keeps the programs and data that the CPU needs to work with**

**ANSWER: I RAM is made of microchips**

**ANSWER: C RAM keeps its contents when the computer is off**

**QUESTION: Which of the following is NOT a computer storage device?**

**TYPE: Multiple Choice**

**ANSWER: C Monitor**

**ANSWER: I Hard Disk**

**ANSWER: I CD-ROM**

**QUESTION: A Floppy disk can store more information than a CD-ROM.**

**TYPE: True or False**

**ANSWER: False**

**QUESTION: Which of the following devices is "Read Only"?**

**TYPE: Multiple Choice**

**ANSWER: I Hard Disk**

**ANSWER: I Floppy Disk**

**ANSWER: C CD-ROM**

**QUESTION: The computer can read information from a hard disk faster than it can from a floppy disk.**

**TYPE: True or False**

**ANSWER: True**

**QUESTION: The mouse works in conjunction with the monitor.**

**TYPE: True or False**

**ANSWER: True**

**QUESTION: Computer programs are referred to as Software.**

**TYPE: True or False**

**ANSWER: True**

**QUESTION: Which of the following executes the instructions contained in programs?**

**TYPE: Multiple Choice**

**ANSWER: I System Software**

**ANSWER: I Application Software**

**ANSWER: C The processor**

**QUESTION: Which of the following statements is INCORRECT?**

**TYPE: Multiple Choice**

**ANSWER: I Computer programs control the operation of the computer**

**ANSWER: C Computer programs are stored in the computer's input and output devices**

**ANSWER: I Computer programs contain instructions that tell the computer what to do**

**QUESTION: Application software is also called the Operating System.**

**TYPE: True or False**

**ANSWER: False**

**QUESTION: Which of the following is NOT a function of system software?**

**TYPE: Multiple Choice**

**ANSWER: I Managing the computer**

**ANSWER: C Performing user tasks such as word processing**

**ANSWER: I Copying files**

**ANSWER: I Controlling the execution of application programs**

**QUESTION: Microsoft Word is an example of application software.**

**TYPE: True or False**

**ANSWER: True**

**QUESTION: A word processing program does not need to work with the operating system.**

**TYPE: True or False**

**ANSWER: False**

**QUESTION: All applications are compatible with all operating systems.**

**TYPE: True or False**

**ANSWER: False**

**QUESTION: All types of information inside the computer are encoded into the digits "0" and "1."**

**TYPE: True or False**

**ANSWER: True**

**QUESTION: What is the term used for the smallest unit of binary encoded information?**

**TYPE: Multiple Choice**

**ANSWER: I Byte**

**ANSWER: I Digit**

**ANSWER: C Bit**

**ANSWER: I Number**

**QUESTION: ASCII is a set of codes used for encoding the English character set into binary digits.**

**TYPE: True or False**

**ANSWER: True**

**QUESTION: How many bits are contained in a byte?**

**TYPE: Multiple Choice**

**ANSWER: I 1 bit**

**ANSWER: C 8 bits**

**ANSWER: I 16 bits**

**ANSWER: I 32 bits**

**QUESTION: How many bytes of storage are required for holding the eight letter word "COMPUTER" encoded into ASCII?**

**TYPE: Multiple Choice**

**ANSWER: I 1**

**ANSWER: I 2**

**ANSWER: C 8**

**ANSWER: I 16**

**QUESTION: A Gigabyte is equivalent to about a million bytes.**

**TYPE: True or False**

**ANSWER: False**

**QUESTION: Typically, which of the following has the least storage capacity?**

**TYPE: Multiple Choice**

**ANSWER: I CD-ROM**

**ANSWER: I Hard Disk**

**ANSWER: C Floppy Disk**

**QUESTION: What is the unit used for measuring the speed of processor clocks?**

**TYPE: Multiple Choice**

**ANSWER: I Megabytes**

**ANSWER: C Megahertz**

**ANSWER: I Bits**

**ANSWER: I Bits per second**

**QUESTION: Which of the following statements is INCORRECT?**

**TYPE: Multiple Choice**

**ANSWER: I A processor can execute several million instructions in a few seconds**

**ANSWER: C The faster the clock speed, the slower the processor can execute a list of instructions**

**ANSWER: I At every tick of its clock, the processor performs a part of an instruction**

**ANSWER: I The processor is the computer's brain**

**QUESTION: Modems are devices used by computers for transferring information over telephone lines.**

**TYPE: True or False**

**ANSWER: True**

**QUESTION: What is the unit used for measuring the rate of information transfer between computers?**

**TYPE: Multiple Choice**

**ANSWER: I Bytes**

**ANSWER: C Bits per second**

**ANSWER: I Megahertz**

**QUESTION: Several computers connected together by communication links are referred to as a computer network.**

**TYPE: True or False**

**ANSWER: True**

**QUESTION: In a client-server network, each client acts as a server.**

**TYPE: True or False**

**ANSWER: False**

**QUESTION: Which of the following is NOT a type of computer network?**

**TYPE: Multiple Choice**

**ANSWER: C Server**

**ANSWER: I LAN**

**ANSWER: I WAN**

**ANSWER: I Internetwork**

**QUESTION: The Internet and the World Wide Web are one and the same.**

**TYPE: True or False**

**ANSWER: False**

**QUESTION: Web site is a server that keeps web pages.**

**TYPE: True or False**

**ANSWER: True**

**QUESTION: Connection to the Internet may be obtained from an ISP.**

**TYPE: True or False**

**ANSWER: True**

**QUESTION: In order to access the Internet, the computer does NOT need one of the following. Which one is it?**

**TYPE: Multiple Choice**

**ANSWER: I Connection to the network**

**ANSWER: I The browser software**

**ANSWER: C A CD-ROM**

**QUESTION: Check Boxes let you turn a selection On or Off.**

**TYPE: True or False**

**ANSWER: True**

**QUESTION: From a group of Check Boxes on the screen, only one Check Box can be turned on at a time.**

**TYPE: True or False**

**ANSWER: False**

**QUESTION: Radio Button is another name for Check Box.**

**TYPE: True or False**

**ANSWER: False**

**QUESTION: When you select a Radio Button, all the other Buttons in the group are automatically selected as well.**

**TYPE: True or False**

**ANSWER: False**

**QUESTION: Dialog Boxes may contain a variety of elements such as Buttons, Text Fields, Lists, Check Boxes and Radio Buttons.**

**TYPE: True or False**

**ANSWER: True**

**QUESTION: Dialog Boxes are used to get information from the user for performing a particular task.**

**TYPE: True or False**

**ANSWER: True**

**QUESTION: If a program has an icon on the Desktop, how can you start the program using its icon?**

**TYPE: Multiple Choice**

**ANSWER: I Single Click the icon**

**ANSWER: C Double Click the icon**

**ANSWER: I Drag the icon to the "Recycle Bin"**

**ANSWER: I Drag the icon to the "Start" button**

***END***
